

Sea Lion Woman: the biography of a song

Long before Feist made the song her own, Sea Lion Woman was recorded in the field by Herbert Halpert, founder of Memorial's Department of Folklore. Come discover an audio history of the song with Dr. Philip Hiscock (Folklore), who will examine the impact of Halpert's work, along with librarians Patrick Warner and Dr. Dianne Keeping, who will highlight the hidden gems of Halpert's private collection, said to be "one of the finest personal folklore libraries in the world."
